Q.No	Question	CO	Marks
Q1	When two disciplines come together in a research work, how do the methodologies align? Take the case of ecology and gender studies as an example to explain in detail.		5
Q2	Discuss how can humanities researchers employ ethnographic studies to substantiate theory with sociological data. In this context, provide sample studies from the research papers you have studied in your literature review.		5
Q3	A textual research analysis is incomplete without theoretical grounding of the subjects. Agree/Disagree with the statement providing sufficient examples to back up your position.		5
Q4	Taking 8-10 recent papers in the field of eco-feminism, discuss how newer researches have incorporated a variety of research methods which are different from the traditional literary enquiry and what role has technology played in facilitating these methods of research?		10
